## Definition of Abbreviations

Abbreviation	Description
FT	Flat top upper receiver with picatinny rails. Standard on some models. Any A2 upper can be ordered as a flat top for no additional cost.
A2	Standard upper receiver with an A2 rear sight. The fully adjustable rear sight includes both windage and elevation adjustment with two apertures.
A3	Flat top upper receiver with picatinny rails. Includes a detachable carry handle. The carry handle features an A2 rear sight.
UR	Upper receiver (aka Top End Assembly) unit. This is just the top half of a complete model. Does not include the lower receiver or any parts attached to it. Sometimes includes a magazine or other parts.
SUM	Stainless Ultramatch barrel. These are our top of the line barrels. They are broach-cut from 416 stainless steel bar stock with 4 lands and 4 grooves to minimum SAAMI specifications.

## FAQ: Products & Options

Olympic Arms is an FFL licensed firearms manufacturer based in Olympia, Washington. Our facilities include manufacturing, machine shops, coating/finishing shops, production, assembly, warehousing, shipping, offices and a retail storefront. We are a true manufacturer of AR-15 firearms because we manufacture all major components ourselves at our own facilities in the United States. Our manufacturing areas turn raw materials into finished parts which are assembled in our production building and shipped directly to Dealers and customers.

**Q: Can I order that model with a flat top upper?**

**A: YES!** Any Olympic Arms model that has an A2 upper can be ordered as a flat top upper at no additional cost. For models standard with a flat top upper you can order them as A2 uppers, again at no additional cost.

**Q: Are Olympic Arms' receivers forged or cast?**

**A: Aluminum Forgings!** Olympic Arms Inc. exclusively uses 7075 T6 Aluminum forgings for our upper and lower receivers. The receivers are machined by Olympic Arms in our machine shop.

### Company History

Olympic Arms, Inc. was founded by Robert C. Schuetz, and began as Schuetzen Gun Works (SGW) in 1956, manufacturing barrels in Colorado Springs, Colorado. Prior to that Mr. Schuetz had been partnered in business with well known gunsmith P.O. Ackley. In 1975 the company moved to Olympia, Washington, and while its business in rifle barrels and barrel blanks thrived, it also began manufacturing complete custom bolt-action rifles. In 1982, Schuetzen Gun Works began to manufacture AR15/M16 rifles and components under the trade name of Olympic Arms, Inc, while custom bolt action rifles continued to be produced under the SGW brand. In 1987 the company purchased Arizona-based M.S. Safari, adding the M1911 pistol to its lineup under the name Safari Arms.

Olympic was the first to introduce features now seen as commonplace on the AR15 platform. It was the first company to produce flat-top upper receivers, free floating aluminum hand guards, pistol caliber conversions, and AR-15 based pistols. Olympic also manufactures many AR-15s in calibers other than the standard 5.56x45mm. Olympic was the first in the industry to offer AR15 style firearms in 9x19mm and .45 ACP, 10mm, 7.62x39, and the Winchester Super Short Magnum cartridges.

Olympic Arms is one of the few AR15 manufacturers to make every major component part in-house. They have been found to constantly meet the rigid specifications of military, government and law enforcement agency contracts. Olympic Arms has provided firearms for Law Enforcement and Government agencies around the globe, including every branch of the U.S. Armed Forces.

**All receivers are 7075 T6 Aluminum Forgings.**

**Machined by Olympic Arms in our machine shops!**

Additional information can be found on our web site: [www.olyarms.com](http://www.olyarms.com) in the FAQs and Support sections.

## General Information

### Ordering Instructions

We take pride in our customer service team, which consists of the most courteous and knowledgeable staff in the industry. Our sales offices and customer service team can be reached Monday through Friday, from 7:00 a.m. until 4:00 p.m. Pacific Standard Time.

Phone (800) 228 - 3471 • Fax (360) 491 - 3447  
www.olyarms.com for 24/7 Ordering

### Direct Retail Sales

Olympic Arms has a retail storefront that is open to the public Monday through Friday, from 8:00 a.m. until 4:30 p.m. Pacific Standard Time. Firearms can be purchased directly from Olympic Arms by Washington State residents, and qualified buyers from out of State. All Federal, State and Local laws apply.

### How To Order

A retail customer is any individual who is not a Federal Firearms Licensed (FFL) Dealer. All retail customer orders are accepted by telephone, mail, fax, or e-mail. Customers can also order certain items from our online store (visit our website for details). Orders must include: full name with shipping address (PO Box addresses are NOT accepted), day time and business phone and fax numbers if available, a method of payment arrangement, and a complete description of the products ordered to include item and/or stock numbers. Dealer orders will NOT be accepted under the name of anyone other than those people who are named on the FFL or those not designated by the Licensee. No exceptions to these policies will be made.

### Shipping And Handling Fees

Shipping and handling fees are a flat rate based on the dollar value of the contents of each box or package shipped. Please be advised that it may not be possible to ship all orders in one box, meaning that one order may have multiple shipping charges based on the size, shape, weight and dollar value of the contents of the box. Shipping and handling charges are taxable to Washington State residents.

The scale for determining per box/package shipping and handling charges is as follows:

\$0.01 - \$99.99	\$9.95
\$100.00 - \$499.99	\$19.95
\$500.00 - 999.99	\$28.95
\$1000.00 & Up	\$49.95
COD	\$15.00 Extra per package requiring COD label.

These rates only apply to the continental United States. Rates to Alaska and Hawaii may vary.

### Methods Of Payment

We accept COD (Certified funds - meaning Bank Check or Postal Money Order), credit card (currently Master Card, Visa and Discover only) and DO NOT ACCEPT pre-paid orders. To receive a 'COD Company Check OK' status, a bank reference

must first be filed with the Olympic Arms accounting department. At the time of a bank reference filing a 'COD Check OK' account MAY be approved for future shipments pending approval by our accounting department.

Credit card accounts are not charged until the order is shipped. Sales Tax in Washington State is based on destination of sale (whatever your local sales tax is.) Sales Tax in our store front is 7.9%. Sales taxes for Washington state orders are waived if a Washington State Resellers Permit is on file with our accounting department. Olympic Arms is not responsible for refunding collected Sales tax to a qualified company if a Resale Permit was not on-file at the time of the order. The Olympic Arms accounting department does NOT offer 'open' accounts of any type.

### Returns

Returns must first be approved by our Customer Service Team and a Return Authorization Number will be assigned. To avoid time and processing delays, please do not return any product to Olympic Arms before first contacting our customer service team.

All returns must be sent to:

Olympic Arms, Inc.  
Att: Returns & Repairs  
624 Old Pacific Hwy SE  
Olympia, WA 98513

Please be sure that you include a personal and company name, a return address (PO Box addresses are NOT accepted), a daytime phone number, a copy of the original invoice, as well as a letter detailing the reason for the return. All of these items must be included with a return to ensure prompt processing of a returned item.

No CLASS III returns or repairs can be accepted without prior notification and proper ATF transfer. All CLASS III items sent to Olympic Arms without advance notification and the proper ATF forms will be IMMEDIATELY returned to the sender.

### Restocking Fee

All refused or returned shipments without prior authorization are subject to payment of all shipping charges incurred by Olympic Arms, as well as a fifteen percent (15%) restocking fee. Please be sure to call to determine if a RETURN AUTHORIZATION NUMBER is required before you return any product to us. Olympic Arms is bound by all federal laws applicable to the products we manufacture and sell, including the legal transfer of such weapons. Please contact our customer service staff during business hours for confirmation of procedures.

### Export/Foreign Customers

Due to international law, the Olympic Arms Limited Lifetime Warranty only applies within the continental United States, Alaska and Hawaii. All foreign customers must seek advice for service through their importer.

## Warranty Information

### Lifetime Warranty

Our goal at Olympic Arms, Inc. ("OAI", "we" and "us") is to lead the industry in customer service and satisfaction. For this reason, we are proud to offer the most comprehensive factory warranty of its kind by any AR-15 manufacturer.

We will warranty all parts and products manufactured by OAI against any and all manufacturer's defects in materials and workmanship, which effect the satisfactory operation of the item being warranted. This portion of the warranty is non-transferable.

The liability of OAI is limited to repair or replacement of only those parts determined by our staff to be defective on the part of the factory. The decision to repair or replace a warranted product will be made by OAI as necessary to provide the customer with a properly operating finished product. OAI assumes no liability for accidental or consequential damages. The following items are specifically excluded from coverage under this warranty:

1. Normal wear of the protective finishes and of all metal or plastic parts.
2. Damage or malfunction resulting from accident, negligence, misuse, or unauthorized repair or alteration.
3. Damage or malfunction resulting from barrel obstructions.
4. Damage or malfunction resulting from use of other than factory SAAMI specification brass cased new production ammunition.
5. Damage resulting from the use of ANY imported, hand loaded, reloaded, or factory re-manufactured ammunition.
6. Any finished products that are NOT assembled at the factory, or are assembled using imported, used, or non-Olympic Arms parts. This includes completed rifle kits, pistol kits, upper receivers, lower receivers, barrel units / assemblies, etc.
7. Any damage to OAI parts or components during assembly by an individual, organization, company, or entity other than OAI.

This Warranty only applies to product sold within the continental United States, Alaska or Hawaii.

### Satisfaction Guarantee

Beyond warranty, Olympic Arms, Inc. ("OAI", "we" and "us") guarantees complete customer satisfaction. If you are not completely satisfied with the purchase of any OAI product based on any product or warranty related reason\*, simply return it to us within sixty (60) days along with a copy of the original invoice from Olympic Arms, and we will replace the item, or credit or refund\*\* the original purchase price (to be determined by OAI). Restrictions apply, see below.

\*Product or warranty related reason is defined as any warranty or service/repair issue, or deficiency in the advertised performance of the product in question. It does not apply to dealers and/or individuals who, after having received the product feel as though a different product would be better suited for their needs. In cases such as this, exchanges can be made on new, unfired, products returned in their original packaging along with a copy of the original sales invoice. A restocking fee (currently 15%) may apply.

\*\*Refunds are made on returns based on our advertised Lifetime Warranty and/or Satisfaction Guarantee. All credit card purchases made directly from Olympic Arms will be refunded to the credit card on which the original purchase was made. Cash purchases, or COD orders will be refunded via an Olympic Arms company check to be issued no earlier than five (5) business days after the returned product has been received. Shipping and handling charges are not refunded unless the product returned is determined to have been defective from the time it left OAI and are not refunded or credited on non-warranty related exchanges. No exceptions.

If your purchase was made through an OAI retailer/dealer, then they (the retailer/dealer) have the option to return the product to OAI for a replacement, credit, or refund of the original purchase price as well. OAI does not dictate the in-store policies of OAI retailers/dealers. Check with your retailer/dealer for their policy before purchasing.

### Warranty Repair

All returns for warranty repair must be shipped to the address specified in the 'Returns' section. Determination as to whether the problem with the returned product is covered under warranty will be made after it is inspected by the expert technical staff of Olympic Arms. Due to the fact that many products returned for warranty reasons do not qualify under the warranty, the customer is responsible for shipping costs in returning products for inspection. If once inspected the product returned in fact qualifies for repair under the Olympic Arms Warranty, reasonable shipping costs will be refunded to the customer if a copy of the receipt for the shipping costs incurred can be provided.

# Our New MPR 308-15

One custom lower, almost unlimited custom rifles. The MPR 308-15 is a new product from Olympic Arms offering a billet aluminum lower receiver that is designed to accept any and all standard AR15 upper receivers and associated caliber options AS WELL AS Olympic Arms .308 style uppers. Olympic 308-15 lower is engineered with two positions for front pivot pins, allowing to accept the Olympic proprietary .308 uppers and any standard AR15 upper as well. Another quality feature that makes the MPR 308-15 special is that all the fire control parts in the lower receiver are standard AR15 parts. No special hammers, triggers, or selectors. The MPR 308-15 lower also accepts all standard AR15 magazines (of all calibers) and the unique Olympic Arms .308 magazine.

Olympic 308 style uppers will include a wide range of calibers that are sure to pique any shooters interest. Start your day with a 5.56x45/.223 upper, and switch to .308 upper in seconds. No special assembly or parts alteration is required. All that is required is to swap-out the upper, and use the appropriate magazine. Easily and quickly switch between calibers like .223 and .308, and then to 45ACP, or 9mm, or 7.62x39, 6.8 Remington, or even popular hunting rounds like 300 Winchester Short Magnum, .260 Remington, 7mm-08 and so many more. Finally, one lower that truly conquers all.

## 24" Barrel

MSRP: \$ 1688.70

# Production Models

The following models are from our Production Line. Production Models are defined as our regularly produced models that are in a regular state of production. While it is our goal to have production such that it meets demand as closely as possible in order to keep wait times to a minimum, this is not always the case. Back orders up to and occasionally exceeding 90 days are not untypical.

The AR15 products included in the Production Models lineup can only be ordered through the existing Olympic Arms Distribution network, and ARE NOT available as a direct purchase item from dealers not already on-file with Olympic Arms. A list of the available resellers included in the Olympic Arms distribution Network is made available on the Olympic Arms web site, or can be emailed by contacting [info@olyarms.com](mailto:info@olyarms.com).

## K22 Rimfire Target Match

Upper type:	Forged flat top w/ picatinny rails
Front sight:	None
Handguard:	Free floating aluminum tube w/ knurling

## Speciality Shop Models

Outside of our Regular Production models, Olympic Arms is proud to offer a full line of Specialty Shop rifles and carbines. The following pages include our Specialty Shop offerings for you to choose from. Specialty Shop models are defined as models that are not regular production, and are made in limited quantities and in smaller production runs that will vary in time and volume throughout the year. Because these models are offered in limited production runs, quantities are limited and delivery times will vary considerably from those of regular Production Models. If you are ordering a Specialty Shop unit, please be aware that delivery times may be expected to exceed 90 days, and that no delivery schedules are offered, implied or guaranteed.

K40-M	20 round Olympic Arms 40 S&W Pistol cal Mag	\$45.44
K45-M	18 round Olympic Arms 45 ACP Pistol cal Mag	\$45.44

Olympic Arms pistol cal top end assemblies convert your AR into a pistol caliber dynamo! Choose from 9mm, 10mm, 40 S&W or 45 ACP calibers. No modifications to the lower receiver are necessary, and no tools to install are needed. Just install the pistol caliber conversion upper on your assembled lower, change the magazine and you're good to go.

These kits are also available with a host of the regular options. Options include flat top upper, free floating handguards, bipod studs and mounts, rail kits and more.

These top end assemblies are fully assembled, head-spaced, bore-sighted and test-fired for function with 5 rounds.

**NOTE:** *Pistol cal barrels are not available as M4, fluted or featherweight contours.*

### Also Available with Picatinny Flat-top Upper!

The feed ramp in the Pistol Caliber Upper Receivers has changed slightly over the years and the polymer magazine may not work in all Upper Receivers without minor modification.

If you purchase a magazine and it doesn't feed properly send in your upper receiver to the factory to perform this modification free of charge.

Pistol Caliber magazine parts are available

## Top End Assemblies | .223 Remington / 5.56 NATO

Code	Item	Retail
K1SA	16" top end assembly, stripped	\$422.50

# UMAR (Ultimate Magnum AR)

The ONLY AR15  
Chambered in 22-250!

The following features are used in addition to standard features on the UMAR lower receiver:

1. Modified UMAR AR-15 lower receiver magazine well. Designed specifically for the UMAR magazines to accept the venerable .22-250 caliber and long WSSM loads.
2. Threaded bolt catch hole: designed for a quick and easy change of your bolt catch between standard 5.56 magazine and the UMAR magazines, (Which use different bolt catches). Swap back and forth in seconds!
3. All modified UMAR lower receivers can also readily accept every standard AR-15 upper and caliber option. The UMAR lower is applicable to all AR-15 calibers from .22 LR and 5.56 NATO, to the WSSM and .22-250 calibers. Just swap the upper, the magazine and the bolt catch (if needed).
4. UMAR magazines come in two varieties:  
.22-250 or WSSM/OSSM

2.420 OAL with UMAR Magazine

**MSRP: \$1588.70**

\*Upper receivers are not available for the 22-250. This is due to the fact that they will not work on standard AR15 lowers.

## Standard UMAR Features include:

## Barrel Assemblies | 5.56 NATO

A complete barrel assembly is exactly what a tired out AR-15 needs, but is also great for reconfiguring. All parts for a complete re-barrel are included. These assemblies do not include receivers and are not assembled, but they are available in a variety of lengths, contours and configurations. Assemblies shown below include button rifled barrels only and are 5.56 NATO only.

Code	Item	Retail
<b>AR-15 Barrel Assemblies</b>		
F1A	16" barrel, chromemoly steel	\$220.25
F1B	16" barrel, stainless steel	\$267.04
F1E	20" barrel, chromemoly steel	\$261.90
F1F	20" barrel, stainless steel	\$275.60
F1H	16" M4 contour barrel, stainless steel	\$270.04
F1HB68	Same as F1H in 6.8 Remington caliber	\$316.19
<b>Barrel Assembly Upgrades</b>		
F8R	FIRSH handguard for 16" barrel kits	\$128.70
F7R	FIRSH handguard for 20" barrel kits	\$167.70
AWB	Muzzle not threaded, no bayonet lug	N/C

F1A

F1-23

CAR barrel is an 11.5" button rifled barrel with a permanently attached 5.5" flash suppressor. FAR barrel is a 16" barrel with a featherweight contour.

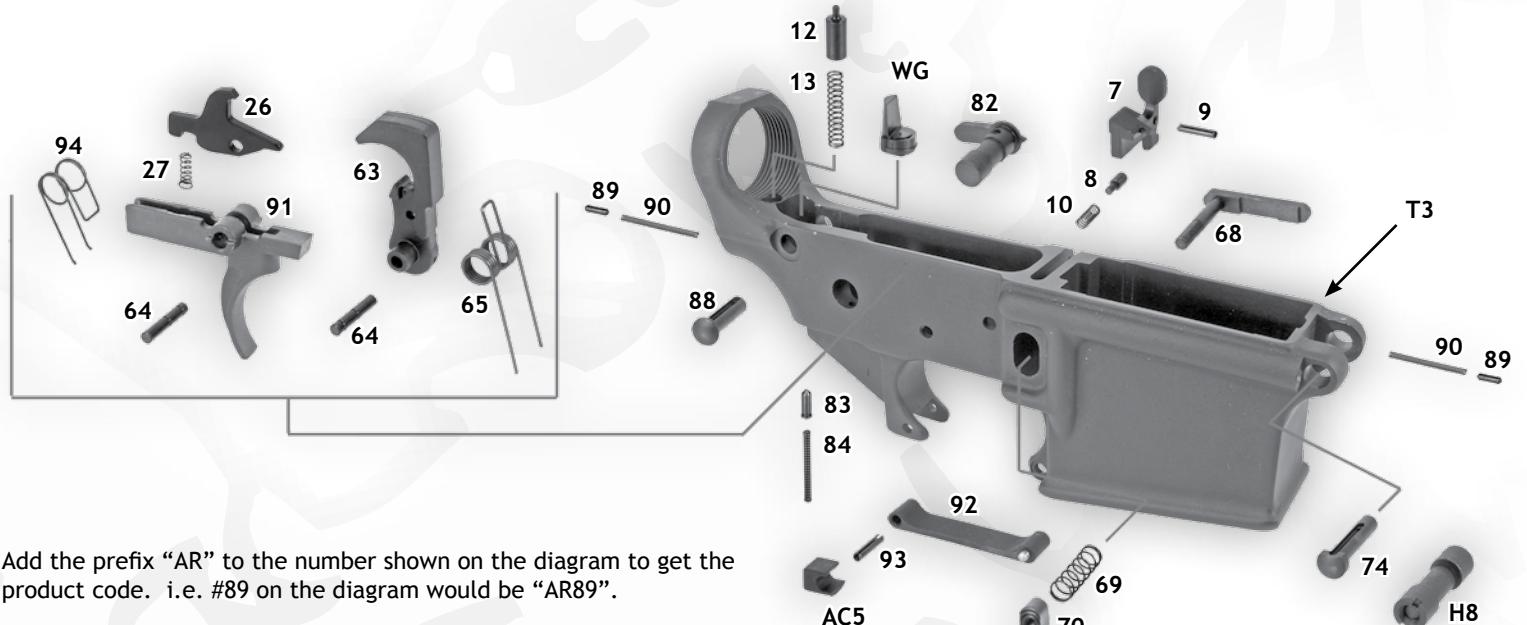

Standard barrel assemblies include a threaded muzzle, flash suppressor w/ compression washer, barrel nut, A2 front sight w/ bayonet lug, gas tube, gas tube roll pin, delta ring assembly, sling swivel and appropriate length fiberite handguards.

Code	Item	Retail
<b>K23B "Stubby" Barrel Assembly</b>		
F1-23	6.5" barrel, chromemoly steel	\$269.00
F23R	FIRSH handguard for 6.5" barrel kit	\$110.50

This assembly features a 6.5" button rifled barrel from 4140 chromemoly steel with threaded muzzle, sling swivel, Phantom flash suppressor, compression washer, barrel nut, free floating aluminum tubular handguard and gas tube. The barrel includes A2 front sight without bayonet.

F1-23 is only available for legally registered AR pistols and short barreled rifles. Please call our Customer Service Team for details as any other use is NOT LEGAL.

## AR-15 Parts | Lower Receiver Parts

Add the prefix "AR" to the number shown on the diagram to get the product code. i.e. #89 on the diagram would be "AR89".

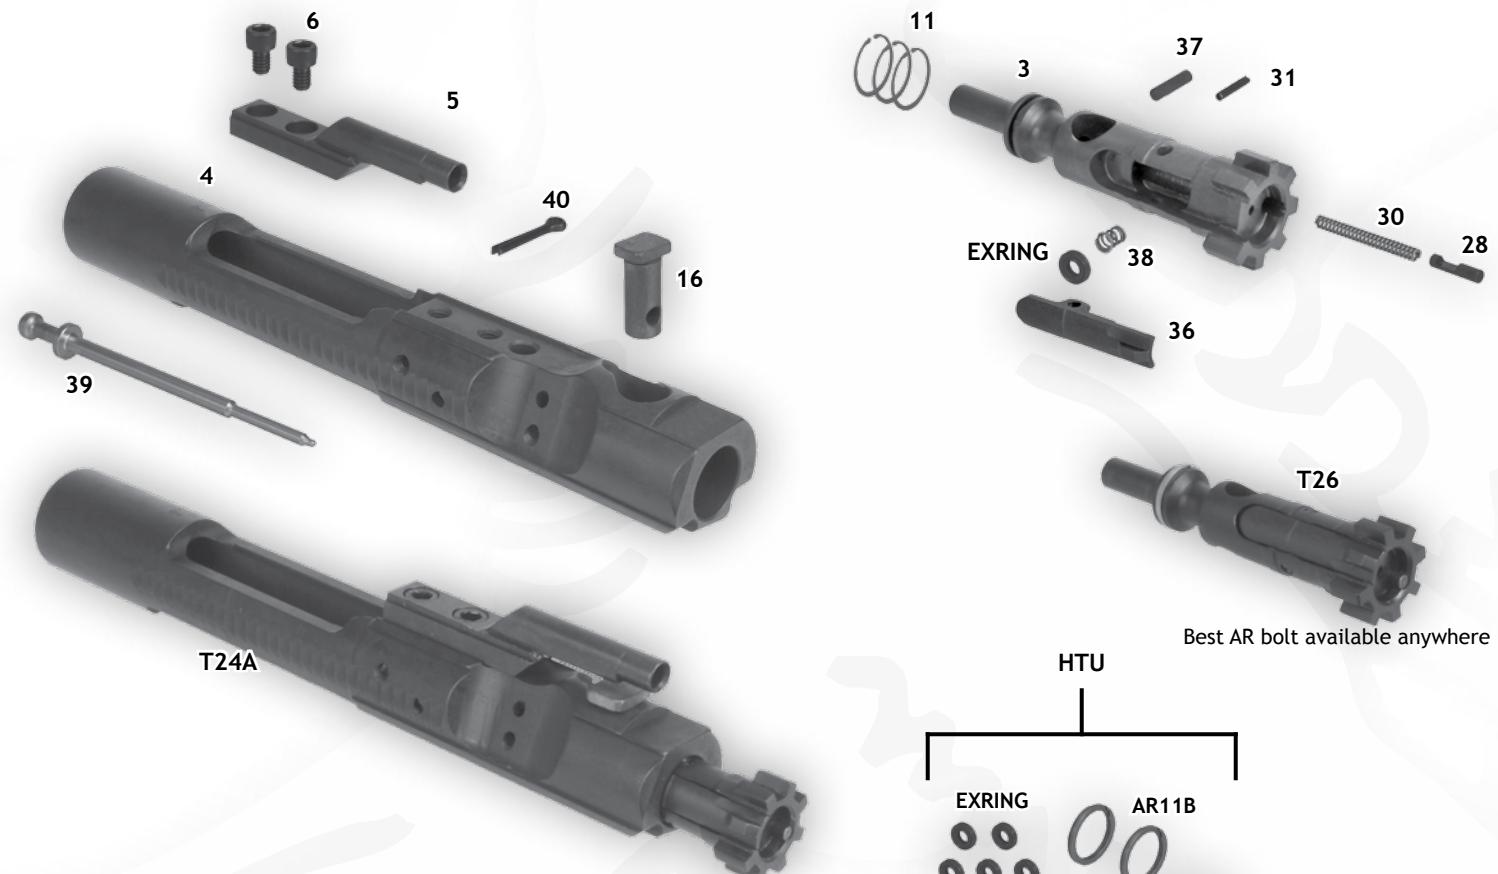

The lower receiver parts set includes all parts necessary to complete a stripped lower receiver not including the buttstock or pistol grip.

Code	Item	Retail
T3	Forged lower receiver, stripped	\$141.70

## Lower Receiver Assemblies | Forged Receiver Sets

The products on this page have a limited availability. Please call sales at (800) 228-3471 to check before ordering.

All of our receivers are forged and made from 7075 T6 aluminum forgings.

Olympic Arms has been manufacturing both upper receivers and lower receivers since 1975 and has a history supplying them to other big name manufacturers.

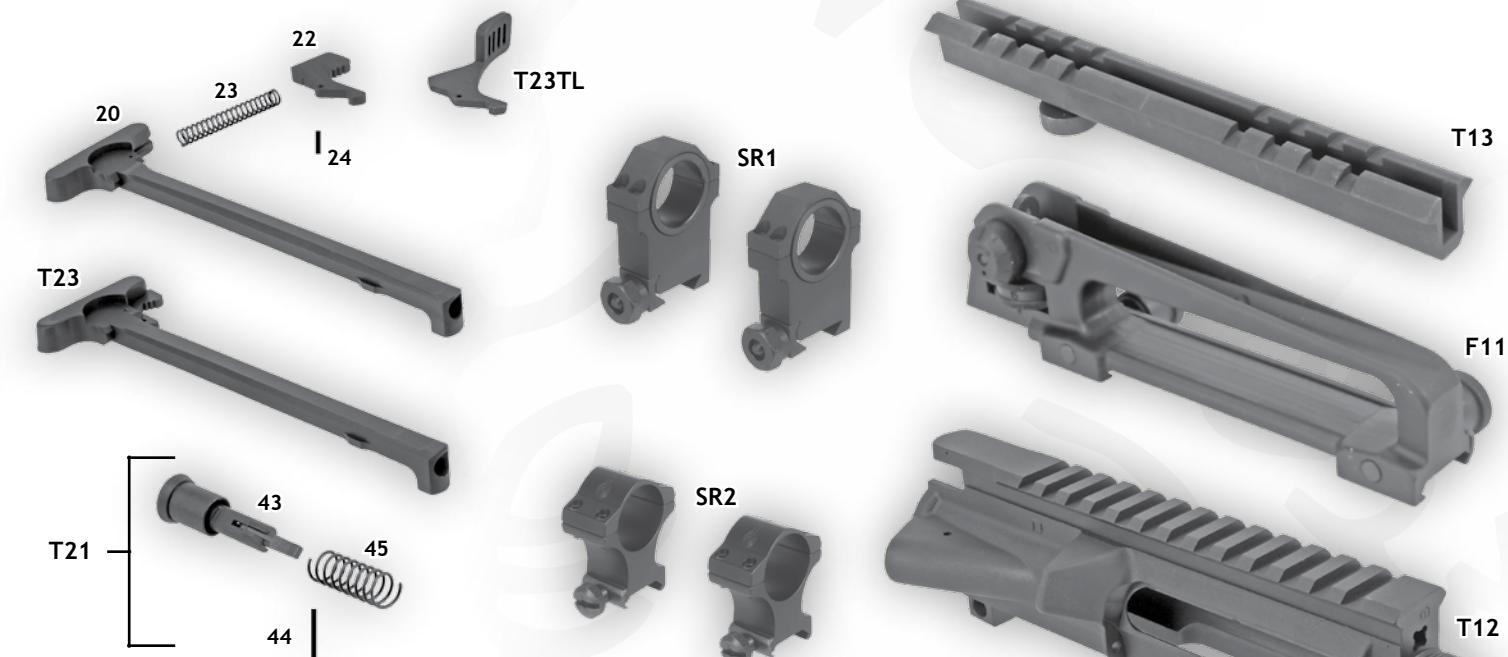

Stripped uppers and lowers do not include any internal or external parts.

Lower receiver sets include the stripped lower receiver, pistol grip, buttstock (either A2 or collapsible) and all internal receiver parts.

Receiver matched sets include a stripped upper and a stripped lower receiver.

Code	Item	Retail
T2	Forged A2 upper, stripped	\$110.50
T12	Forged flat top upper, stripped	\$141.70
T3	Forged lower receiver, stripped	\$141.70
K5A	Forged lower receiver set, A2, assembled	\$323.00

AR34	Ejection cover, hinge pin	\$1.43
AR35	Ejection cover, hinge pin clip	\$0.78
AR43	Forward assist, round	\$18.20
AR44	Forward assist, retainer pin	\$0.78
AR45	Forward assist, spring	\$1.43
F11	Detachable Carry Handle (A3)	\$104.00
<b>Additional Products</b>		
SR1	Scope rings, 30mm w/ 1" inserts	\$56.00
SR2	Scope rings, 1"	\$25.03
T2	Upper receiver, A2, stripped	\$110.50
T11	Upper receiver, A2, w/ parts	\$190.00
T12	Upper receiver, flat top, stripped	\$141.70
T12A	Upper receiver, flat top, w/ parts	\$170.00
T13	A2 carry handle scope mount	\$19.50
T21	Round forward assist assembly	\$18.20
T22	Ejection cover assembly	\$13.00
T23	Charging handle, complete (AR20)	\$28.60
T23TL	Charging handle, tactical latch	\$28.54

Flat top upper with parts [T12A] includes the flat top receiver, round forward assist assembly and ejection cover assembly. The A2 upper with parts [T11] includes the A2 receiver, round forward assist assembly, ejection cover assembly and rear sight assembly. Stripped receivers [T2, T12] do not include any parts.

Charging handle tactical latch [T23TL] does not include the charging handle itself.

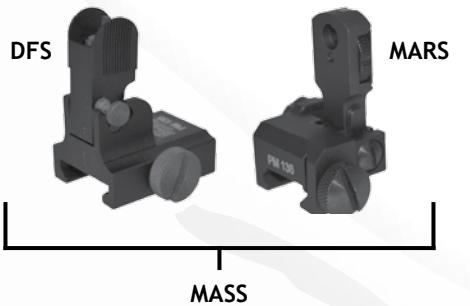

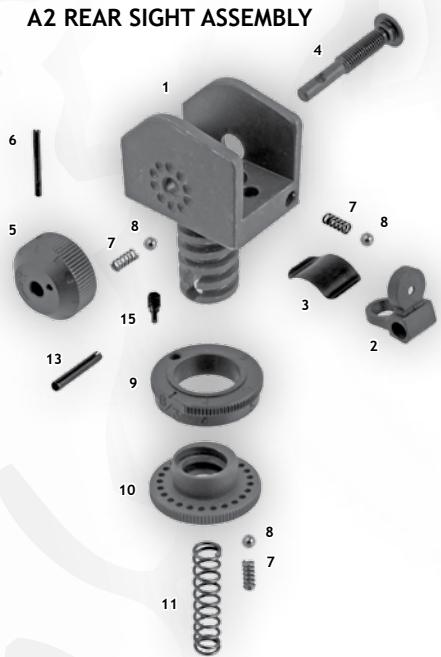

Assembly T21 includes AR43, AR44 and AR45. Assembly T22 includes AR32, AR33, AR34 and AR35. Charging handle T23 and AR20 are the same product.

## AR-15 Parts | Rear Sight Assembly

Code	Item	Retail
T15	A2 Sight assembly	\$70.20
T15-1	A2 Sight base	\$11.12
T15-2	A2 Sight aperture	\$6.24
T15-3	Leaf spring	\$1.24

T15-11	Elevation base spring	\$1.04
T15-13	Sight base elevation lock roll pin	\$0.52
T15-15	Elevation wheel lock screw	\$0.72
Additional Products		
BJS	Interchangeable aperture system	\$70.30
MARS	Flip up, multiple aperture rear sight	\$96.20
DFS	Flip up, detachable front sight	\$71.50
MASS	Set, flip up rear sight and front sight	\$148.20
T14	Rear sight assembly, A1, windage	\$39.00
T15	Rear sight assembly, A2, full adjustment	\$70.20
T15A	Rear sight assembly, A2, National Match	\$104.00
AR75	A1 rear sight, aperture	\$7.15
AR76	A1 rear sight, adjusting screw	\$3.51
AR77	A1 rear sight, detent spring	\$0.78
AR78	A1 rear sight, detent	\$0.78
AR79 (T15-3)	A1 rear sight, leaf spring	\$0.78
AR80	A1 rear sight, windage drum	\$4.88
AR81	A1 rear sight, windage drum roll pin	\$0.78

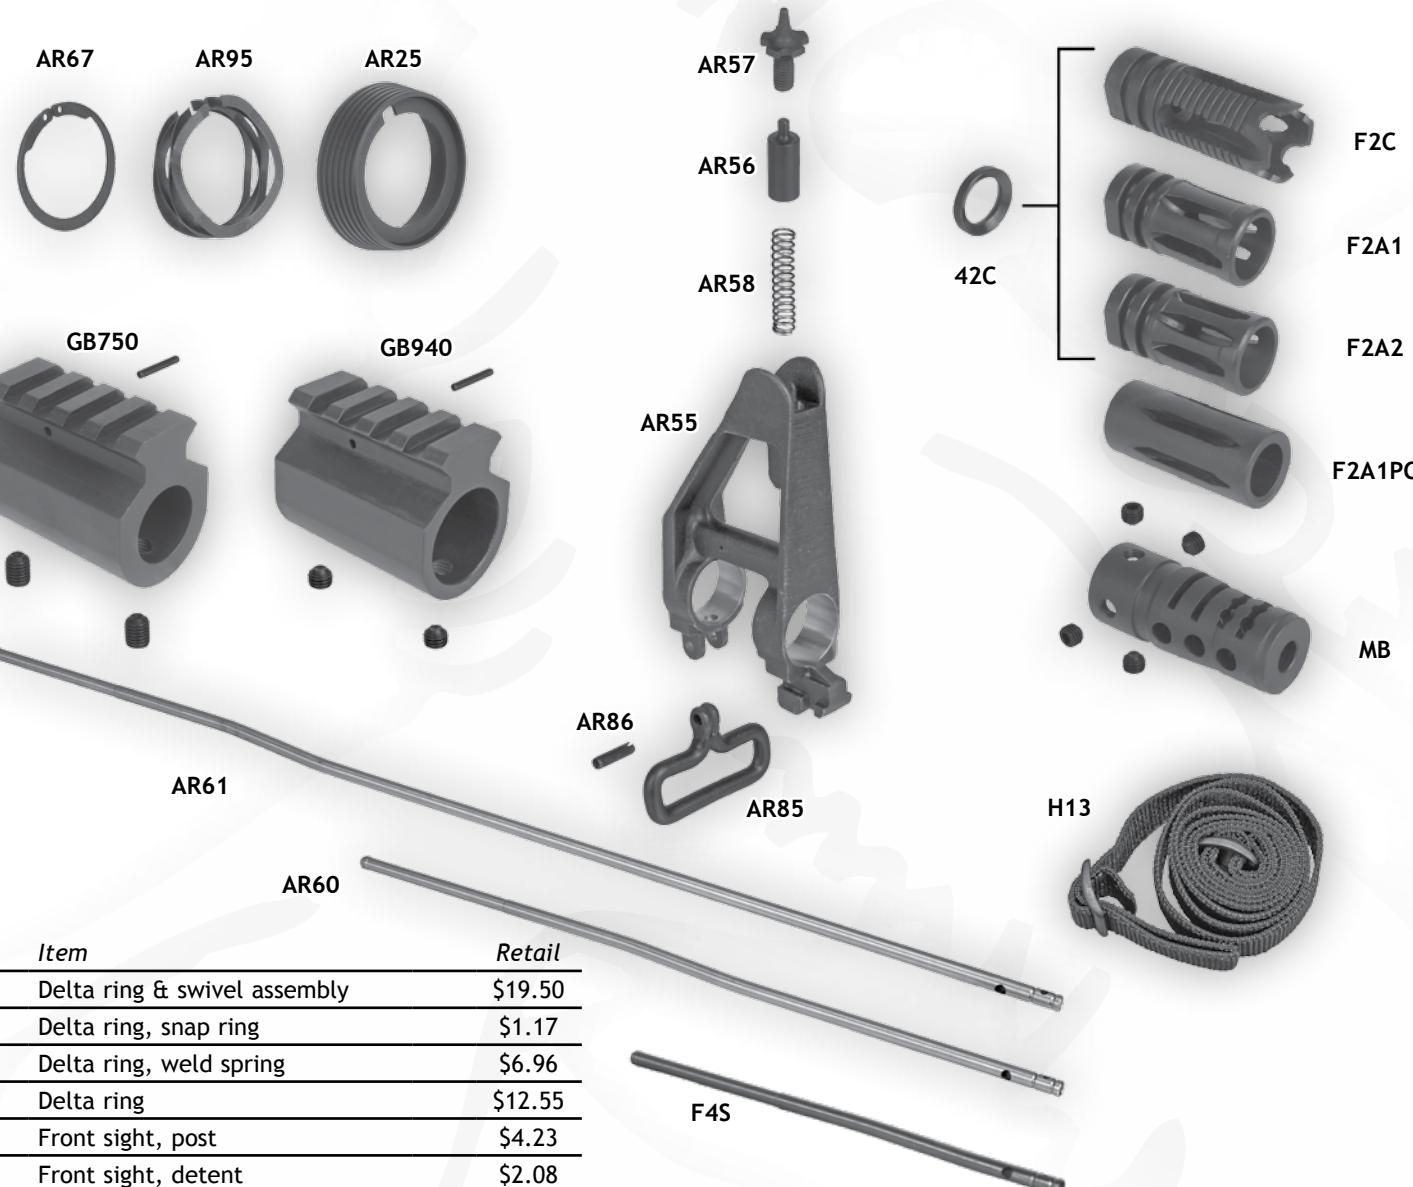

Add the prefix "T15-" to the number shown on the diagram to get the product code. i.e. #4 on the diagram would be "T15-4".

Rear sight assemblies [T14, T15, T15A] are complete with all parts. The A1 rear sight parts are only for A1 upper receivers and have only windage adjustment. The A2 rear sights do not fit on A1 upper receivers.

Interchangeable aperture system [BJS] features a threaded aperture holder and five separate sized apertures. A tool for changing the apertures is included. Requires an A2 rear sight (not included).

## AR-15 Parts | Barrel Assembly

Code	Item	Retail
F5A	Delta ring & swivel assembly	\$19.50

T30CM4SAO	Buttstock, Shell & Latch Assem.	\$32.50
AR96	Buttstock, M4, lock ring	\$6.96
AR97	Buttstock, M4, receiver plate	\$3.58
SSA	Buttstock, M4, side sling adapter	\$18.20

## AR-15 Parts | ACE® Skeleton Stocks

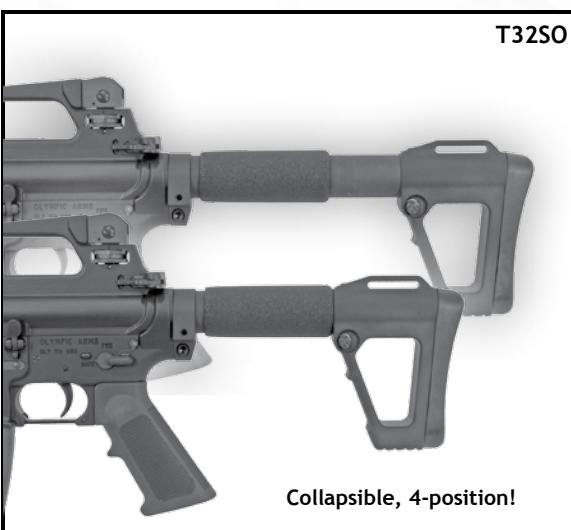

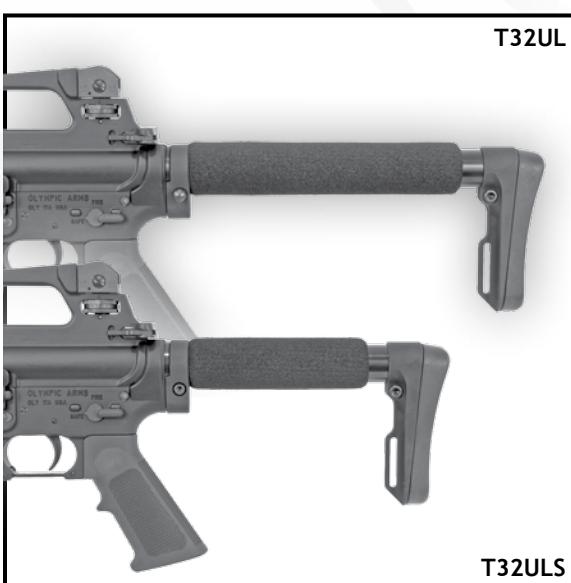

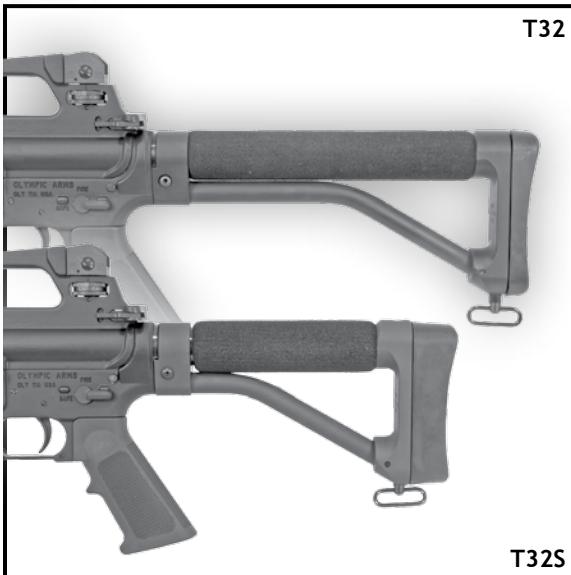

ACE Ltd, USA is the creator and innovator of skeletonized AR-15 buttstocks on today's market. The FX line of stocks represents the highest quality of lightweight materials, durability under heavy use and comfort for extended use.

Retro fit stocks get you the parts necessary to switch from an A2 buttstock to the ACE skeleton stock.

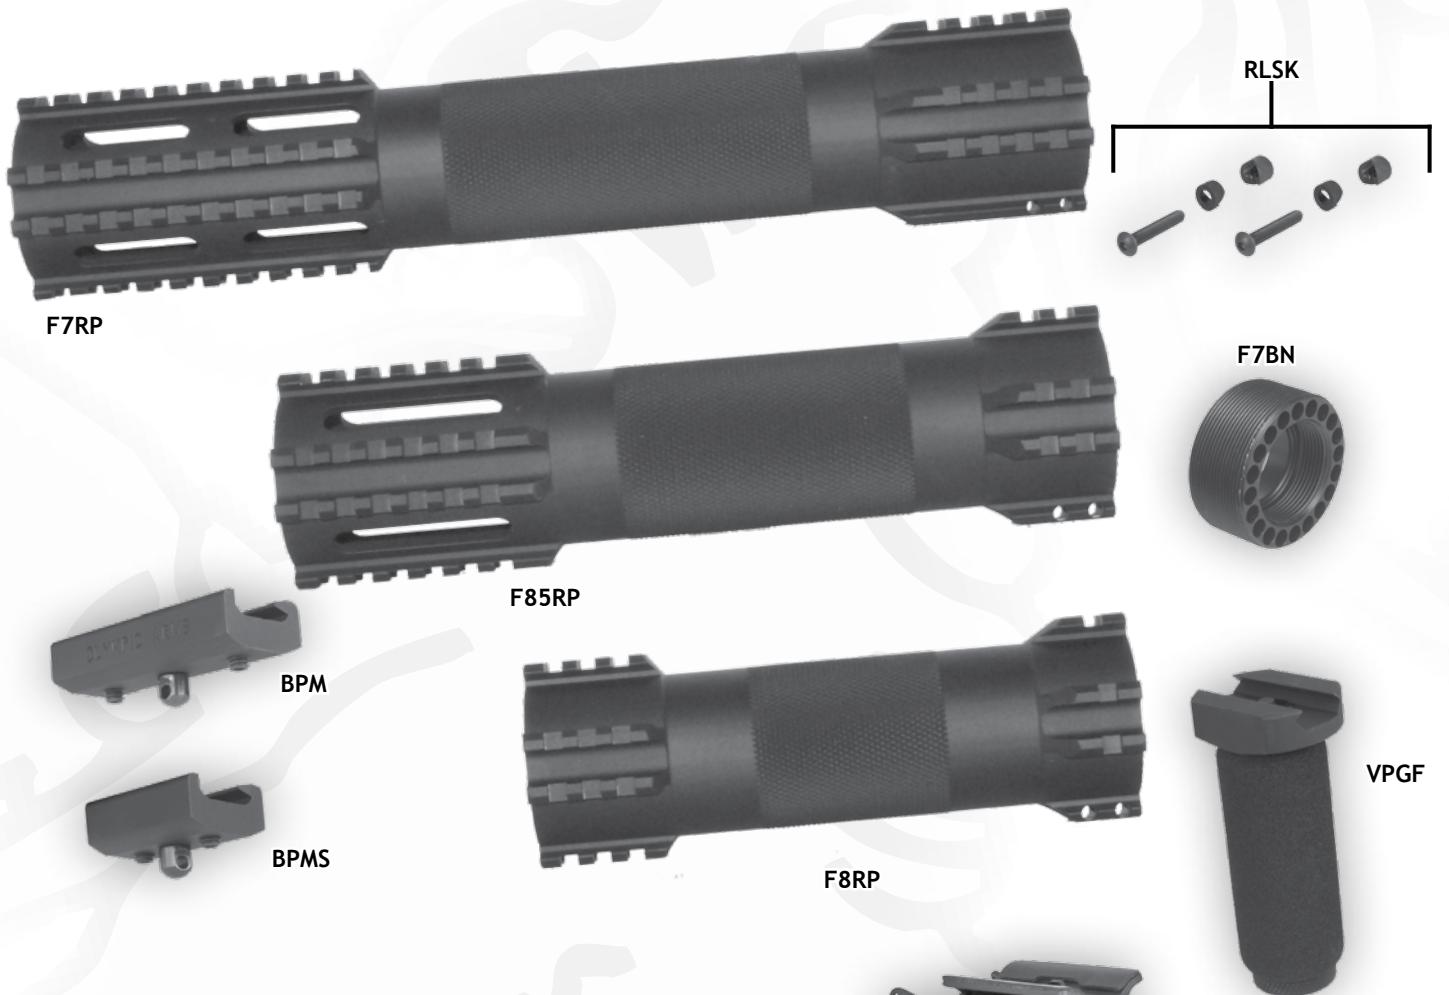

Complete kit stocks get you all of the parts for installation onto a stripped lower receiver.

Easy to install and each model includes an optional rubber pad for grip and comfort (shown installed).

Code	Item	Retail
T32	FX stock, retro fit	\$113.10
T32A	FX stock, complete kit	\$144.30
T32S	FX stubby stock, retro fit	\$97.50

## AR-15 Parts | Magazines & Handguards

## Prop Guns | Training Models

# Cobalt Trainer

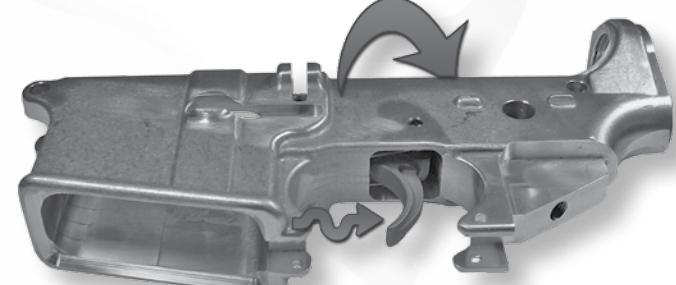

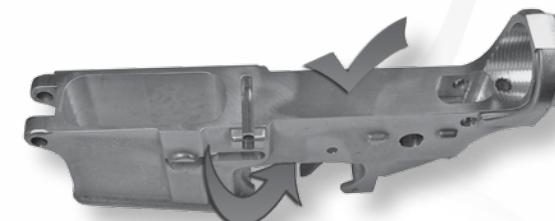

The purpose of the COBALT TRAINER as a complete rifle is to be a BATFE classified non-firing rifle used for training, but to be one as functionally similar to a live-firing rifle as possible. One definitive characteristic of the COBALT TRAINER is the design of the lower receiver.

Brian Schuetz of Olympic Arms, Inc. designed the COBALT TRAINER lower receiver in a manner that allows the part to maintain the appearance of its live-firing counterpart and at the same time incorporating a modification that keeps the COBALT TRAINER lower receiver from being converted to a live-fire usable part.

Noting the photos below it can be seen that a functioning trigger is incorporated though the trigger housing area of the lower receiver is a solid piece. This design change prevents a fully functioning trigger from being installed into the lower receiver which in turn prevents the COBALT TRAINER lower receiver from being used in a manner it was not intended for.

The COBALT TRAINER lower receiver still accepts standard magazines and includes a magazine catch with button. The receiver can have various standard thread buttstocks installed and includes a standard safety-selector assembly.

Our non-firing prop guns look and feel just like real firearms. These models cannot fire live ammunition nor can they be modified to do so. An FFL is not required to purchase non-firing prop firearms.

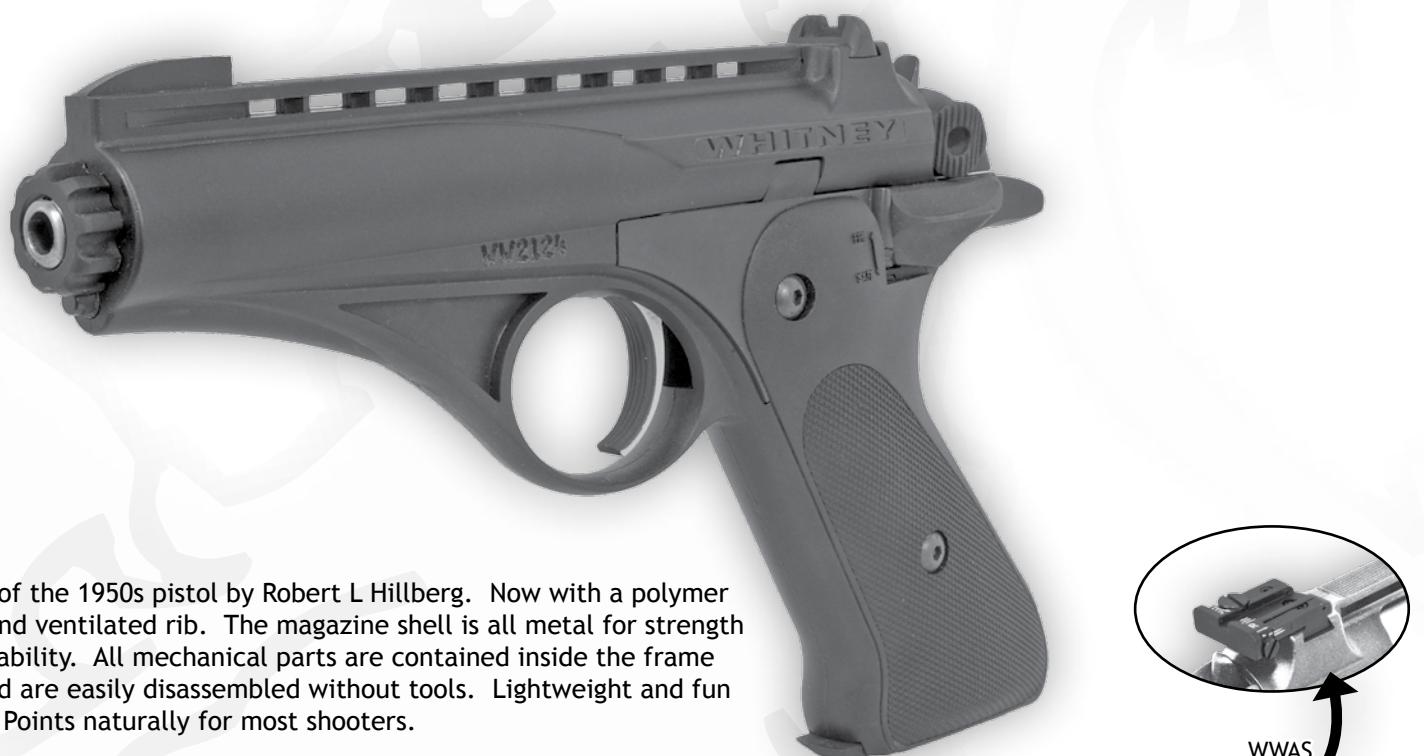

Olympic Arms' non-firing models have been used in big screen Hollywood movies such as Clear and Present Danger, Eraser, Batman Returns, Bad Boys, The Professional, The Rock and more.

Non-firing prop models can be built to any configuration imaginable because they do not function and are not subject to firearms restrictions set by the BATFE.

## Whitney Wolverine | Models & Accessories

Revival of the 1950s pistol by Robert L Hillberg. Now with a polymer frame and ventilated rib. The magazine shell is all metal for strength and durability. All mechanical parts are contained inside the frame shell and are easily disassembled without tools. Lightweight and fun to use. Points naturally for most shooters.

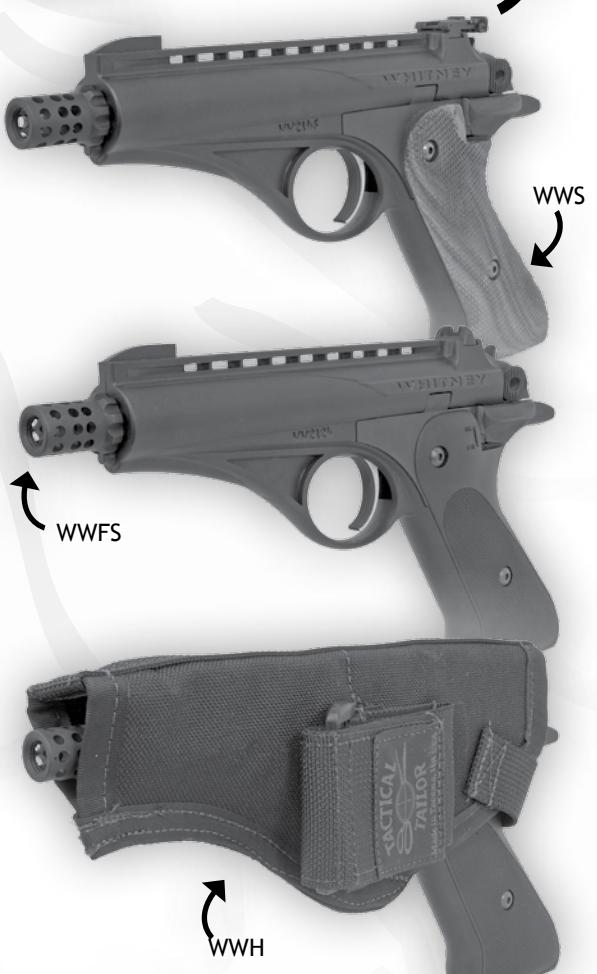

### Whitney Wolverine Specifications:

- 4.625" Barrel
- 6-groove, 1x16 twist rate
- 5.25" Sight radius
- Blade type front sight
- Dovetail rear sight
- Uses .22 Long Rifle
- Magazine capacity: 10 rounds
- Black checkered grips
- Length: 9"
- Height: 5.5"
- Empty Weight: 19.2 oz.

# 1911's

For Immediate Release:  
To: 1911 Customers Date: 26 June, 2014  
Re: Order Status

Dear 1911 Customer,

Olympic Arms has a rich history of 1911 production. Since having acquired both the M.S. Safari Company, and the Randall Corporation in the late 1980's and combining them into Safari Arms, Inc. our 1911's took the market by storm and set new standards for quality, reliability and accuracy in a reasonably priced 1911. Safari Arms also grew internationally, becoming one of Europe's most desired 1911's. Owning our own casting house and tooling allowed us to keep a close eye on quality control from molten steel to finished product. Manufacturing our own famous broach-cut National Match grade barrels from bar stock in-house, gave us the ability to provide unprecedented accuracy for hundreds, even thousands less than other brands.

Since that time, the 1911 industry has exploded, and the market has changed significantly. More recently, our company was forced to close our casting facility in Costa Mesa, CA, and our machines and tooling had to be relocated to a new facility that is still unable to produce our parts to the standards we require. That project is still on-going, but does not hold a great deal of promise. Lastly, our Master 1911 Pistolsmith of over 20 years, Mr. Richard Neimer passed away very unexpectedly this past November. The collective results of these events have caused such an interruption in production of raw materials, parts and assemblies that have up to this point, been insurmountable.

Therefore, due to this combined set of circumstances, both in-house and within our manufacturing chain, circumstances we have had little or no control over, Olympic Arms is announcing today, and with great regret, the cancellation of all current orders for 1911 pistols, as well as 1911 frames and slides.

With the reputation and history behind the Safari Arms/Olympic Arms 1911 products, we have decided that we must continue to provide the same quality product, an excellent and affordable shooting experience for our customers, or we will not re-enter the 1911 market.

All unfulfilled 1911 orders will then be kept in an archived folder pending the conclusion our management's decision on how to best continue, or whether to continue at all, the production of our 1911 products. Should Olympic Arms move forward with the production of 1911's within the next 12 months, we will honor all of the archived orders at their originally ordered price. Should the decision be made that we cannot continue the 1911 product line and maintain the standards our customers have become accustomed to, all dealers with archived orders will be notified of this decision, at which point all archived orders will then be permanently canceled.

We deeply regret that these unexpected circumstances have caused confusion, continued delay and extreme inconvenience on the part of our dealers and their customers. We will continue to move forward evaluating the continuation of our 1911 product line, and will alert you of any decision made with urgency.

Sincerely,

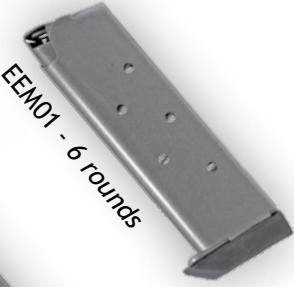

Tom Spithaler  
Sales Director  
Olympic Arms, Inc.

## Naked Frames & Magazines

The same price for every frame. Choose Stainless (A) or Carbon (B) steel. All frames are cut with a .250" grip safety radius.

Available loaded with plunger tube, ejector and grip screw bushings installed.

Code	Description	Retail
<b>Naked Frames</b>		
	Same price, every frame	\$167.70
+KFB	Insert kit, naked frame; Black	\$192.40

## Grips & 1911 Parts

Many 1911 parts require fitting by a pistolsmith for fit and function in your 1911 pistol. There are no "drop-in" function guarantees because of the many different types and qualities of 1911 pistols manufactured by other companies.

Some items are available in stainless or black finish. Use the appropriate code in the column to specify stainless or black. Triggers include over-travel screw and hex head wrench. For the Smith & Alexander mainspring housing you must specify flat type or arched type when ordering.

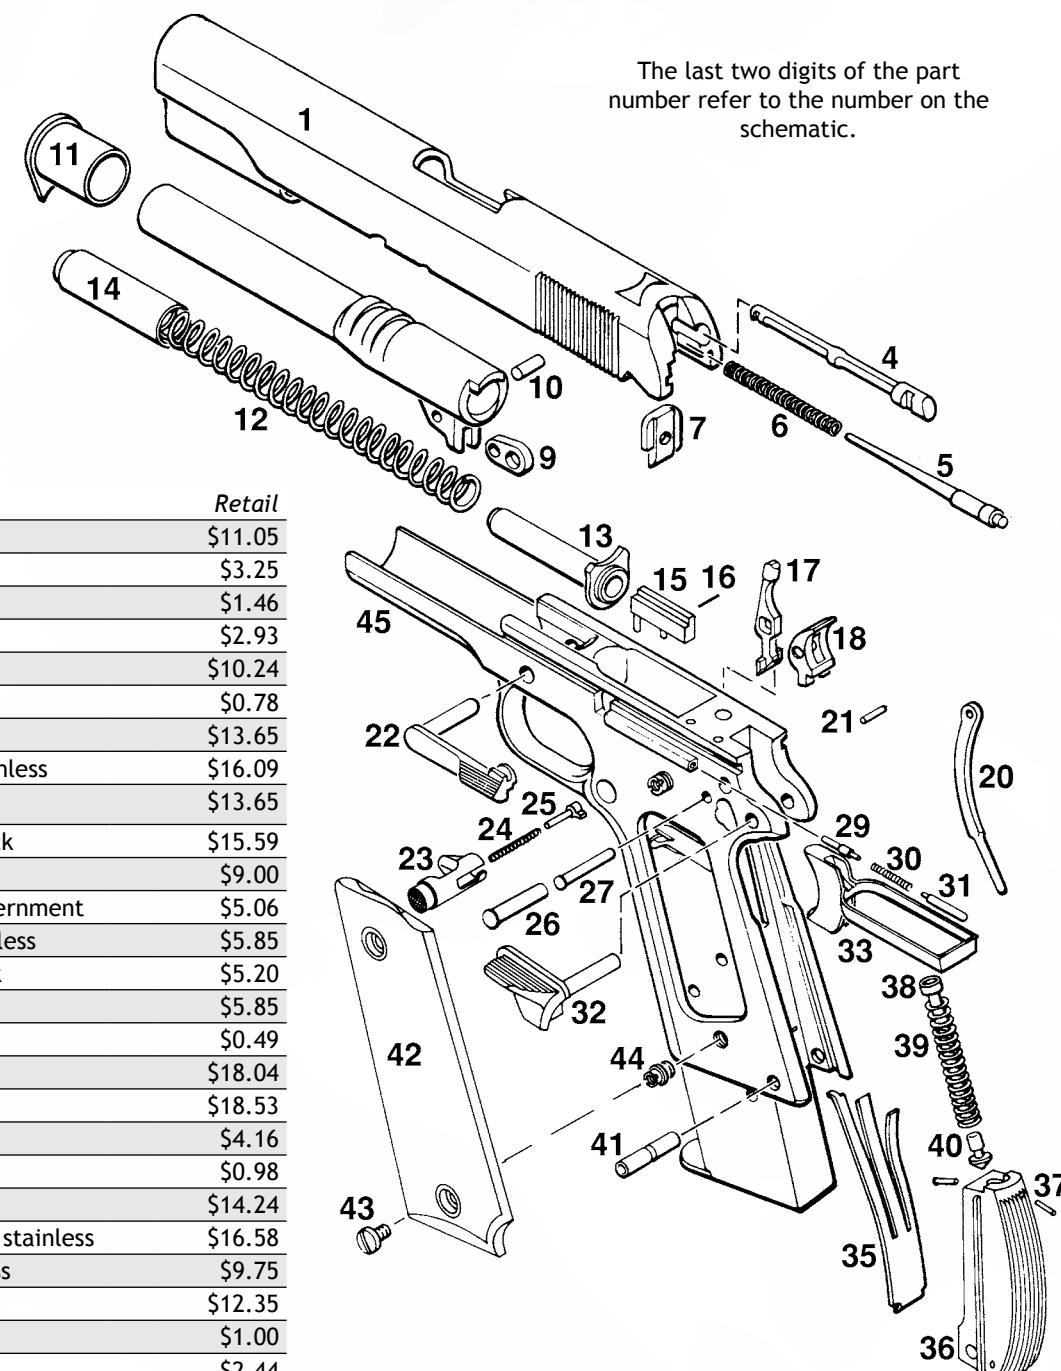

Stainless	Black	Item	Retail
AS1A		Adjustable rear sight, white dot	\$54.60
AS2A		Adjustable rear sight, serrated	\$54.60
AS3A		Front sight, blade type	\$9.50
C4533A		Trigger, aluminum	\$10.24
C4533V		Trigger, match style, Videki	\$17.55
C4536		Mainspring housing, government	\$32.50
C4536B		Mainspring housing, Enforcer (loaded)	\$52.00
C56SA		Mainspring housing, Smith & Alexander	\$45.50
C4551A	C4551B	Mag catch button, large	\$18.14
SA53		Mag catch button, extended	\$12.35
HHP-1		Hammer & sear pins, hardened	\$12.68
SA46A	SA46B	Thumb safety, extended	\$13.65
SA50A	SA50B	Thumb safety, extended, ambidextrous	\$25.94
SA47A	SA47B	Slide stop, extended	\$13.65
SA48A	SA48B	Grip safety, hi-ride beavertail	\$29.25
SA49A	SA49B	Grip safety, Safari beavertail	\$11.05
SA52		Guide rod, for 5" models	\$30.42
SA55A	SA55B	Hammer, commander type	\$16.84

Grips			
SS01A	SS01B	Allen head grip screws, includes wrench	\$5.50
EB2		Grips, full size frame, double diamond	\$31.20
EB		Grips, full size frame, full checkered	\$17.23
PHB2		Grips, enforcer frame, black widow	\$32.50
PHB3		Grips, full size frame, scorpion	\$32.50

**PHB2** grips fit **enforcer** size frames only, have a smooth finish and are laser etched with our black widow icon. **PHB3** grips fit full size frames, have a smooth finish and are laser etched with our scorpion icon. **EB2** grips features exotic wood and are exclusive to Olympic Arms. **EB** grips are fully checkered walnut grips.

## Gunsmithing Tools | Maintenance Tools

Code	Item	Retail
AC1	Chamber cleaning kit	\$14.24
OAL	Cable gun lock	\$8.26
AC8-KC	Delryn punch, compact key chain	\$7.15
AC8	Delryn punch, full size	\$8.45
AC74-KC	4 prong sight tool, compact key chain	\$12.94
AC74	4 prong sight tool, full size	\$14.24
AC75-KC	5 prong sight tool, compact key chain	\$12.94
AC75	5 prong sight tool, full size	\$14.24
H45	5 prong sight tool, A1 windage tool	\$12.94
H3	Collapsible stock spanner wrench	\$4.23
H5A	Headspace gauge, GO	\$30.25
H5B	Headspace gauge, NO-GO	\$30.25
H5C	Headspace gauge, FIELD	\$30.25
H5S	Headspace gauge, set of all 3	\$86.14
H2	Dual slot vise jaw blocks	\$8.45
H28	Multi-tool barrel wrench	\$46.80

Delryn punches are great for pushing out takedown and pivot pins. Sight tools are handy when zeroing in your sights.

Dual slot vise jaw blocks hold standard and bull barrels in a vise and the armorer's block kit holds an entire upper receiver safely in a vise without pinching.

Multi-tool barrel wrench does almost everything for an upper receiver assembly. Stock spanner wrench incorporates a 1911 bushing removal tool.

## Cleaners | Owner's Manuals | Lights

Weapon Shield cleaning products utilize ABF (Advanced Boundary Film) to clean, lubricate and protect your firearms. Provides practical elimination of metal to metal wear, protection for moving metal parts, significant reduction in dust, debris and fouling, increased firearm reliability and increased firearm accuracy.

Lew Horton

Getting into a Distributor Exclusive is EASY. Once we agree on a configuration, all Olympic Arms requires is a 100 (DD's only 25) unit initial purchase, and guaranteed a minimum annual sale of just 250 (DD's 100) units total over the next 12 months. If you do not reach the sales requirements at the end of the year, that exclusive will be made available to all other distributors, thereby losing the exclusive, and the prestige and profits that came with it.

Think caliber, think configuration, think application. Go high end, go low-budget, go tactical application, go hunting application. The AR is a virtual jigsaw puzzle of options, and the platform for thousands of post manufacture accessory sales that bring huge profits.

Let's get something going now, while the time is right. If you have any questions or ideas, please give us a call.
